

Pigment Red 122 - Quinacridone Pigment

Pigment Red 122 is a clean, blue-shade quinacridone pigment, commonly referred to as pink or magenta. It exhibits excellent fastness properties, including heat resistance, migration resistance, light fastness, and weather resistance.

Primarily used in coatings, plastics, and printing inks, Pigment Red 122 is valued for its vivid hue and durability.

It also complies with relevant regulations, including those of the US FDA and the EU REACH legislation.
